

Mindy Mohr

UI/UX Frontend Designer & Developer

San Jose, CA | moremintteas@gmail.com • [moreminttea@github.io](https://github.com/moreminttea) • [linkedin.com/in/mindymohr/](https://www.linkedin.com/in/mindymohr/)

EXPERIENCE

- UI/UX Frontend Developer | InfolIMAGE Inc.

November 2023 - Present

 - Collaborated closely with product managers and engineers to balance client business goals with strict technical feasibility, ensuring 100% fidelity from initial design intent to final production deployment
 - Spearheaded the creation of a centralized React component library and Storybook design system, standardizing interaction patterns, typography, and visual assets to accelerate product workflows across internal teams
 - Owned the design-to-production pipeline for enhancements and features for a complex accounting billing platform, conducting UX audits and translating pain points into high-fidelity Figma prototypes and React UI
 - Led the end-to-end UX redesign of a core mail-scheduling web application, transforming high-friction legacy workflows into a user-centric React interface that accelerated user task completion rates
- UX Prototype Designer Intern | Cisco AppDynamics

June 2022 - March 2023

 - Designed and architected an accessibility-first theming workflow in Figma for an internal APM product and presented inclusive, WCAG-compliant design research to the broader organization
 - Optimized product team transparency by automating the tracking of design version updates and Jira ticket visibility within the internal design library site, reducing documentation overhead
 - Bridged the design-to-development gap by leading the wireframing, high-fidelity prototyping, and UI implementation of a centralized component library reference site, facilitating rapid design sprints

EDUCATION

- B.S. Computer Science | University of California, Davis

September 2019 - March 2023

 - **Academic Highlights:** Cumulative GPA: 3.698 | 2x Dean's Honors List
 - **Relevant Coursework:** Human-Computer Interaction (HCI), Web Programming, 3D Computer Graphics, Character Animation, Data Structures & Algorithms.

PROJECTS

- KINGPIN | [Collaborative World-Building Site](#)

2022, 2025 – Present

 - Directing the end-to-end development and architecture of an interactive, collaborative web platform optimized for rich data visualization, complex narrative tracking, and highly interactive layouts
 - Iterating on highly responsive front-end interfaces in React, translating customized wireframes into optimized production code while integrating custom graphic assets

SKILLS

- Technical

 - **Languages:** JavaScript (ES6+), TypeScript, HTML, CSS, SASS
 - **Libraries & Frameworks:** React.js, Ant Design, Material UI, Tanstack, Redux, Jest, React Testing Library, D3
 - **Tools:** Git, Github, Gitlab, Jira, Confluence, Storybook, npm, CI/CD
- Other

 - **Tools:** Figma, Adobe Creative Cloud (Illustrator, Photoshop, XD, Fresco), Autodesk Maya
 - **Other:** Developer-Designer Collaboration, Design-to-Code Handoff, Design Systems, UI Engineering, Product Design, Prototyping, Wireframing, User Research, WCAG Accessibility, Illustration
