

Mindy Mohr

UI/UX Designer & Frontend Engineer

San Jose, CA | moreminttea@gmail.com • [moreminttea@github.io](https://github.com/moreminttea) • linkedin.com/in/mindymohr/

EXPERIENCE

UI/UX Frontend Developer | *InfoIMAGE Inc.* November 2023 - Present

- Collaborated closely with product managers and engineers to balance client business goals with strict technical feasibility, ensuring 100% fidelity from initial design intent to final production deployment
- Spearheaded the creation of a centralized React component library and Storybook design system, standardizing patterns, typography, and visual assets to accelerate product workflows across internal teams
- Owned the design-to-production pipeline for enhancements and features for a complex accounting billing platform, conducting UX audits and translating pain points into high-fidelity Figma prototypes and React UI
- Led the end-to-end UX redesign of a core mail-scheduling web application, transforming high-friction legacy workflows into a user-centric React interface that accelerated user task completion rates

UX Prototype Designer Intern | *Cisco AppDynamics* June 2022 - March 2023

- Designed and architected an accessibility-first theming workflow in Figma for an internal APM product and presented inclusive, WCAG-compliant design research to the broader organization
 - Optimized product team transparency by automating the tracking of design version updates and Jira ticket visibility within the internal design library site, reducing documentation overhead
 - Bridged the design-to-development gap by leading the wireframing, high-fidelity prototyping, and UI implementation of a centralized component library reference site, facilitating rapid design sprints
-

EDUCATION

B.S. Computer Science | *University of California, Davis* September 2019 - March 2023

- **Academic Highlights:** Cumulative GPA: 3.698 | 2x Dean's Honors List
 - **Relevant Coursework:** Human-Computer Interaction (HCI), Web Programming, 3D Computer Graphics, Character Animation, Data Structures & Algorithms.
-

PROJECTS

KINGPIN | Lead UI/UX Designer, Artist, & Frontend Developer 2022, 2025 - Present

- Architect an interactive world-building web platform to resolve lore fragmentation during storywriting, designing multi-layered fantasy lore, world map, and character profiles into intuitive, accessible UI hierarchies
 - Execute a seamless end-to-end design-to-code workflow, leveraging custom graphic assets and building interactive React components with dynamic state logic to streamline navigation across complex lore datasets
-

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML, CSS, SASS
- **Libraries & Frameworks:** React.js, Ant Design, Material UI, Tanstack, Redux, Jest, React Testing Library, Vite
- **Tools:** Figma, Git, Github, Gitlab, Jira, Confluence, Storybook, npm, CI/CD, Adobe Creative Cloud (Illustrator, Photoshop, XD, Fresco), Autodesk Maya
- **Other:** Developer-Designer Collaboration, Design-to-Code Handoff (Claude AI-Assisted), Design Systems, UI Engineering, Product Design, Prototyping, Wireframing, User Research, WCAG Accessibility, Illustration
